

Statement of Solidarity with Sudanese Protesters

The GWC Organizing Committee stands in solidarity with the Sudanese Professionals Association, the Sudanese Physicians Union, the Khartoum University Teachers Union, and other unions that have [launched strikes](#) and [taken to the street in Sudan](#) alongside people [calling for the ousting of President Bashir](#) in the face of [mounting prices, corruption, authoritarianism, and neoliberal reforms in Sudan](#) that have rendered food, health care, and education unaffordable. We recognize the ways that our struggles as workers in the US are tied up with the struggles of workers across the globe, and we call on the government of Sudan to take heed of the demands of these protests, to refrain from deadly violence against unarmed and peaceful protesters exercising their freedom of expression, and to free all political prisoners arrested in association with these protests.
